

CAREER FIT CHECK

Go from where you are to where you want to be by identifying what you need to make it happen.

The career path you're on

What material (i.e. financial security) and immaterial (i.e. reputation, satisfaction) opportunities is your current career path opening up for you?

Opportunities you want to seek out

Consider what you've written above: Are you missing something? Is there something you'd like to explore? Can you brainstorm at least two areas your expertise will be valuable for in the next 5 years?

First steps to take

What can you do in the next 4 months to begin creating those opportunities you are seeking? Think of the first small steps you can then build on in 2023.
